Legislative Threats by State

The Doctors Company is committed to supporting medical liability reform and safeguarding access to patient care. Unique to the Doctors Company is a nationwide investment in government affairs and legislative activity which protects our members ability to practice medicine. Each issue of the Government Relations Advocacy Update provides insights into legislative, regulatory, and judicial actions that impact medical liability and the practice of medicine. In every state we analyze and advocate on legislation that will impact TDC Group members, including medical liability, civil litigation, the practice of medicine, data usage and privacy, MPL insurance regulation and more. This issue features a heat map indicating legislative threats by state that TDC Group is actively monitoring and indicating active legislative threats we are anticipating throughout the year.
