**EXCISION of the LUMBAR DISC**

Excision of the lumbar disc is a surgical procedure intended to relieve pressure on the nerve roots that result from a disc rupture (herniation). During the procedure, the surgeon removes extruded fragments of the disc through an incision in the lower back. The disc is a rubbery mass of tissue that acts as a natural shock absorber between the bones of the spine.

Patient's Initials

___ The details of the procedure including the anticipated benefits and material risks have been explained to me in terms I understand.

___ I understand that the procedure may fail to fully or even partially relieve me of the symptoms for which I am having the operation.

___ Alternative methods and therapies, their benefits, material risks and disadvantages have been explained to me.

___ I understand and accept that the most likely material risks and complications of an excision of the lumbar disc have been discussed with me and may include but are not limited to:

- bleeding
- infection
- spinal fluid leakage
- heart attack or other cardiac complication
- nerve root injury
- recurrence
- increased pain
- respiratory difficulties
- adverse reaction to anesthesia

___ I understand and accept that there are complications, including the remote risk of death or serious disability, that exist with any surgical procedure.

___ I understand and accept the risks of blood transfusion(s) that are unlikely but may be necessary.

___ I understand that tissue cannot heal without scarring and that how one scars is dependent on individual genetic characteristics. The physician will do his/her best to minimize scarring but cannot control its ultimate appearance.

___ I am aware that smoking during the pre- and postoperative periods could increase chances of complications.

___ I have informed the physician of all my known allergies.

___ I have informed the doctor of all medications I am currently taking, including prescriptions, over-the-counter remedies, herbal therapies and supplements, aspirin, and any other recreational drug or alcohol use.

___ I have been advised whether I should avoid taking any or all of these medications on the days surrounding the procedure.

___ I am aware and accept that no guarantees about the results of the procedure have been made.

___ I have been advised of the probable consequences of declining recommended or alternative therapies.

___ I have been informed of what to expect postoperatively, including but not limited to: estimated recovery time, anticipated activity level, and the possibility of additional procedures.

___ I understand that any tissue/specimen removed during the surgery may be sent to pathology for evaluation.

___ The doctor has answered all my questions regarding this procedure.

*Continued*
I certify that I have read and understand this treatment agreement and that all blanks were filled in prior to my signature.

I authorize and direct ______________________, M.D./D.O., with associates or assistants of his or her choice, to perform an excision of the lumbar disc on

__________________________ at __________________________, on the
(patient name) (name of facility)

☐ right at __________
Level

☐ left at __________
Level

I further authorize the physician(s) and assistants to do any other procedure that in their judgment may be necessary or advisable should unforeseen circumstances arise during the procedure.
