MASTOPEXY
(Breast Lift)

Mastopexy, or breast lift, is a surgical procedure to raise and reshape sagging breasts by removing excess skin and repositioning remaining tissue and nipples. Mammograms and a routine breast exam are required prior to surgery.

Patient’s Initials

 ___ The details of the procedure including the anticipated benefits and material risks have been explained to me in terms I understand.
 ___ Alternative methods and therapies, their benefits, material risks and disadvantages have been explained to me, including the possible use of implants.
 ___ I understand and accept that the most likely material risks and complications of mastopexy have been discussed with me and may include but are not limited to:
   • additional surgery
   • allergic reactions to tape, suture material, topical preparations
   • asymmetry of breasts and/or nipples
   • bleeding
   • change in nipple and skin sensation
   • delayed healing
   • discomfort (pain/sensitivity)
   • excessive firmness of breast
   • infection
   • permanent and noticeable scarring
   • temporary bruising
   • permanent loss of feeling in nipples or breasts
   • recurrence of sag
   • re-operation required
   • skin or nipple/areola loss
   • sores or numbness around nipples
 ___ I am not pregnant at this time.
 ___ I understand that pregnancy may cause my surgical result to change after delivery.
 ___ I understand that the duration of results are variable; gravity, pregnancy, aging, and weight changes will continue to affect the breasts over time.
 ___ I understand and accept that there are complications, including the remote risk of death or serious disability, that exist with any surgical procedure.
 ___ I understand and accept the risks of blood transfusion(s) that may be necessary.
 ___ I understand that tissue cannot heal without scarring and that how one scars is dependent on individual genetic characteristics. The physician will do his/her best to minimize scarring, but cannot control its ultimate appearance.
 ___ I am aware that smoking during the pre- and postoperative periods could increase chances of complications.
 ___ I have informed the doctor of all my known allergies.
 ___ I have informed the doctor of all medications I am currently taking, including prescriptions, over-the-counter remedies, herbal therapies and supplements, aspirin, and any other recreational drug or alcohol use.
 ___ I have been advised whether I should avoid taking any or all of these medications on the days surrounding the procedure.
 ___ I am aware and accept that no guarantees about the results of the procedure have been made or implied.
 ___ I have been advised of the probable consequences of declining recommended or alternative therapies.
 ___ I have been informed of what to expect postoperatively, including but not limited to: estimated recovery time, anticipated activity level, and the possibility of additional procedures.
 ___ I understand that any tissue/specimen removed during the surgery may be sent to pathology for evaluation.
 ___ The doctor has answered all of my questions regarding this procedure.

Continued
I certify that I have read and understand this treatment agreement and that all blanks were filled in prior to my signature.

I authorize and direct ___________________________, M.D., with associates or assistants of his or her choice, to perform mastopexy on __________________________ at __________________________.

I further authorize the physician(s) and assistants to do any other procedure that in their judgment may be necessary or advisable should unforeseen circumstances arise during the procedure.
